PROFESSIONAL SUMMARY

A results-oriented Software Engineer with over 4 years of experience designing, building, and scaling secure, high-performance applications. Proven ability to lead development cycles, mentor engineering teams, and drive significant performance optimizations (up to 40% latency reduction). Expert in the .NET ecosystem and modern frontend frameworks, with a passion for solving complex problems in high-stakes environments like cybersecurity and FinTech.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Backend: ASP.NET Core, .NET 6+, RESTful APIs, MVC, Entity Framework, SignalR

Frontend: Angular, HTML5, CSS3, Bootstrap

Databases: MySQL, MS SQL Server (Design, Optimization, Indexing)

Tools & Testing: Git, Visual Studio, Postman, xUnit, MSTest

Methodologies: Agile, Scrum, Code Review, System Design

PROFESSIONAL EXPERIENCE

Software Engineer

Aug 2022 – Present

Biz Secure Labs Pvt Ltd

- Architected and led the end-to-end development of a secure multi-tenant web portal, scaling it to support **10,000+ daily active users** for client threat intelligence analysis.
- Improved backend API response times by **40%** (e.g., from 1.2s to 700ms) by redesigning database schemas, implementing advanced indexing strategies in MySQL, and refactoring critical C# code paths.
- Engineered a C# console application to fully automate the generation of complex malware analysis reports, **reducing manual processing time by 80%** and eliminating human error.

- Mentored a team of **8 junior developers**, establishing best practices for Git workflow and conducting rigorous code reviews, which increased team deployment frequency by **25%**.

Junior Software Engineer

Aug 2021 – Aug 2022

Biz Secure Labs Pvt Ltd

- Contributed to the full-stack development of a core security product using ASP.NET, JavaScript, and Angular, delivering features that were part of a **high end product line**.
- Developed and shipped over **20+ reusable UI components** with JQuery, HTML, and CSS, improving development consistency and speed across the team.

PROJECTS

- **Outlook Email Verifier Add-in:** Developed a C# Outlook Add-in using Office.js that scans outgoing emails for sensitive data patterns, preventing potential data leaks and achieving a **90% reduction in accidental internal data exposure** during its pilot phase.
- **Scalable Web API for Internal Services:** Designed and built a RESTful API using ASP.NET Core to serve as a central integration point for three internal applications. The API now handles over **100,000 requests per day** with 99.9% uptime.

CERTIFICATIONS & PUBLICATIONS

Introduction to Generative AI – Google Cloud Skills Boost
Issued Aug 2023 | Credential ID 4790005

Technical Blog – csjob.medium.com
Author of articles on .NET, system design, and software development best practices.

EDUCATION

M.Sc. Computer Science

2020 – 2022

Indira College, Pune | CGPA: 9.9/10.0 (Top 3 Rank Holder)

B.Sc. Computer Science

2017 – 2020

SNBP College, Pune
